

Rhode Island Airport Corporation

Master Plan Update

T. F. Green Airport

December 2002

Landrum & Brown Team

**T. F. GREEN AIRPORT
MASTER PLAN UPDATE**

December 2002

Prepared for:

The Rhode Island Airport Corporation

Prepared by:
Landrum & Brown

In association with:
Edwards & Kelcey
HNTB
Leigh Fisher Associates
URS Corporation
Fitzgerald & Halliday, Inc.

TABLE OF CONTENTS

ACRONYMS	
SOURCES OF INFORMATION	
EXECUTIVE SUMMARY	
ES.1 Master Planning Process	ES-1
ES.2 Plan Pursued By RIAC.....	ES-3
ES.3 Next Steps.....	ES-4
CHAPTER I - INVENTORY	
I.1 Background and History	I-1
I.2 Historic and Current Aviation Activity	I-7
I.3 Airspace and Air Traffic Control.....	I-12
I.4 Meteorological Conditions	I-15
I.5 Existing Airport Facilities	I-16
I.6 Current Capital Improvement Program (CIP) Funding	I-55
I.7 Airport Environmental Conditions	I-59
CHAPTER II - FORECASTS OF AVIATION DEMAND	
II.1 Introduction.....	II-1
II.2 Historical Review of Air Traffic and Economic Trends.....	II-11
II.3 Existing Role Forecasts.....	II-27
II.4 Augmented Market Share Scenario	II-74
II.5 Capacity Constrained Scenarios.....	II-86
II.6 Selected Planning Level.....	II-114
CHAPTER III - DEMAND/CAPACITY AND FACILITY REQUIREMENTS	
III.1 Airfield Facilities.....	III-2
III.2 Terminal Area Facilities.....	III-26
III.3 Surface Transportation Facilities	III-32
III.4 Air Cargo Facilities	III-46
III.5 General Aviation Facilities	III-56
III.6 Support Facilities	III-61
III.7 Summary of Facility Requirements	III-79
CHAPTER IV - ALTERNATIVES	
IV.1 Alternatives Process	IV-2
IV.2 Airfield	IV-3
IV.3 Passenger Terminal Area.....	IV-17
IV.4 Surface Transportation.....	IV-24
IV.5 Support Facilities	IV-36
IV.6 Master Plan Recommendations.....	IV-40

TABLE OF CONTENTS Continued

	<u>Page</u>
CHAPTER V - AIRPORT PLANS	
V.1 Airport Design Standards	V-1
V.2 Airport Layout Drawings	V-3
 CHAPTER VI – IMPLEMENTATION PLANNING	
VI.1 Financial Structure	VI-1
VI.2 Financing Capacity Analysis.....	VI-5
VI.3 Master Plan Projects Summary	VI-7
VI.4 Plan of Finance.....	VI-8
VI.5 Financial Implications.....	VI-15
VI.6 Conclusions.....	VI-18

APPENDICES

APPENDIX A - SURVEY RESULTS

APPENDIX B – FORECAST ASSUMPTIONS

APPENDIX C – SEPTEMBER 11 FORECAST VALIDITY REVIEW

APPENDIX D – TERMINAL SPACE PROGRAM

APPENDIX E – CURBFRONT REQUIREMENTS

APPENDIX F – FULL RANGE OF AIRFIELD CONCEPTS

APPENDIX G – MASTER PLAN CHARRETTES

APPENDIX H – STUDY RESOURCE COMMITTEE MEETINGS

CONTRIBUTORS

EXHIBITS

Exhibit No.

EXECUTIVE SUMMARY

- ES.1-1 Existing Airport Facilities
- ES.2-1 Airfield Concept A7
- ES.2-2 Airfield Concept A8
- ES.2-3 Airfield Concept A9

CHAPTER I - INVENTORY

- I.1-1 Existing Property Boundaries
- I.1-2 Vicinity Map
- I.3-1 Airspace Classification
- I.5-1 Existing Airfield Facilities
- I.5-2 Existing Overnight Aircraft Parking Positions
- I.5-3 Terminal Area
- I.5-4 Existing Gate Facilities
- I.5-5 Existing Airport Parking Facilities
- I.5-6 Survey of Geographical Origins of Parked Autos at
T. F. Green Airport
- I.5-7 Ground Transportation
- I.5-8 2000 Average Daily Traffic (ADT)
- I.5-9 Traffic Control at Study Area Traffic Intersections
- I.5-10 Support Facilities Airport Locations
- I.6-1 Estimated Historical Available Sources of Funds
FY 1997-FY 2001
- I.6-2 Historical Cost per Enplaned Passenger
FY 1994-FY 2001
- I.7-1 1998 Existing Noise Exposure Map
- I.7-2 Noise Complaints by Neighborhood – Year 2000
- I.7-3 Drainage Areas and Groundwater Characteristics
- I.7-4 Section 303(c) Resources
- I.7-5 Existing Wetlands and Water Cover
- I.7-6a Floodplains
- I.7-6b Floodplains Legend
- I.7-7 Prime Farmland and Statewide Important Soils
- I.7-8 Known Hazardous and Solid Waste Sites

CHAPTER II – FORECASTS OF AVIATION DEMAND

- II.1-1 T. F. Green Airport Forecast Scenarios
- II.2-1 Economic Growth in Rhode Island, New England
and the United States
- II.2-2 Historical T. F. Green O&D Passenger Traffic

EXHIBITS Continued

Exhibit No.

CHAPTER II – FORECASTS OF AVIATION DEMAND (Continued)

- II.2-3 Nonstop Air Services at T. F. Green - 1990
- II.2-4 Nonstop Air Services at T. F. Green - 1997
- II.2-5 Nonstop Air Services at T. F. Green - 2001
- II.2-6 2000 Top 15 O&D Markets Without Nonstop Service at
T. F. Green
- II.2-7 Average Fares from Selected East Coast Airports
- II.2-8 Historical T. F. Green Airport Operations
- II.2-9 Historical T. F. Green Total Air Freight (Tons)
- II.3-1 Summary of Forecasting Methodology for Existing
Role Scenario
- II.3-2 T. F. Green and National Yield Levels
- II.3-3 New England GRP Projections
- II.3-4 T. F. Green Yield Projections
- II.3-5 Low Fare Carrier Penetration Factor Projection
- II.3-6 O&D Passenger Forecasts
- II.5-1 Airport Demand/Capacity Summary

CHAPTER III – DEMAND/CAPACITY AND FACILITY REQUIREMENTS

- III-1 Summary of Requirements
- III.1-1 Existing Airfield
- III.1-2 Runway Operating Configurations
- III.1-3 Demand/Capacity
- III.1-4 Average Delay Per Aircraft
- III.1-5 Existing/Potential Markets Served Nonstop from T. F. Green
- III.1-6 Aircraft Takeoff Runway Length Requirements
Current Markets within 800 Nautical Miles
- III.1-7 Aircraft Takeoff Runway Length Requirements
Nonstop West Coast Markets
- III.1-8 Aircraft Takeoff Runway Length Requirements
Regional Jets and Turboprops
- III.1-9 Aircraft Landing Runway Length Requirements
- III.1-10 Primary Taxi Flows – Runway 5 Direction
- III.1-11 Primary Taxi Flows – Runways 5 and 34 Direction
- III.1-12 Primary Taxi Flows – Runway 23 Direction
- III.1-13 Primary Taxi Flows – Runway 34 Direction
- III.1-14 Primary Taxi Flows – Runway 16 Direction
- III.1-15 Federal Aviation Administration (FAA) Design Standards
- III.1-16 Existing Overnight Aircraft Parking Positions
- III.2-1 Terminal Area

EXHIBITS Continued

Exhibit No.

CHAPTER III – DEMAND/CAPACITY AND FACILITY REQUIREMENTS (Continued)

- III.3-1 Enplanement Trip Distribution Plan
- III.3-2 Deplanement Trip Distribution Plan
- III.3-3 Existing Airport Parking Facilities
- III.4-1 Integrated Cargo Carrier Facilities
- III.4-2 Belly Cargo Facilities
- III.5-1 General Aviation Facilities
- III.6-1 Support Facilities
- III.7-1 Summary of Requirements

CHAPTER IV – ALTERNATIVES

- IV.1-1 Alternatives Process
- IV.2-1 Preliminary Airfield Concepts – Concept A1
- IV.2-2 Preliminary Airfield Concepts – Concept A2
- IV.2-3 Preliminary Airfield Concepts – Concept A3
- IV.2-4 Preliminary Airfield Concepts – Concept A4
- IV.2-5 Preliminary Airfield Concepts – Concept A5
- IV.2-6 Preliminary Airfield Concepts – Concept A6
- IV.2-7 Preliminary Airfield Concepts – Concept A7
- IV.2-8 Preliminary Airfield Concepts – Concept A8
- IV.2-9 Preliminary Airfield Concepts – Concept A9
- IV.2-10 Preliminary Airfield Concepts – Concept A10
- IV.2-11 Preliminary Airfield Concepts – Concept A11
- IV.2-12 Preliminary Airfield Concepts – Concept A12
- IV.2-13 Preliminary Airfield Concepts – Concept B1
- IV.2-14 Preliminary Airfield Concepts – Concept B2
- IV.2-15 Preliminary Airfield Concepts – Concept B3
- IV.2-16 Airfield Concept A7
- IV.2-17 Airfield Concept A8
- IV.2-18 Airfield Concept A9
- IV.2-19 Taxiway Improvements
- IV.3-1 Alternative A
- IV.3-2 Alternative B
- IV.3-3 Alternative C
- IV.3-4 Alternative D
- IV.3-5 Alternative E
- IV.3-6 Alternative B/C
- IV.3-7 Alternative E Phase 1 (2010)
- IV.3-8 Alternative B/C Phase 1 (2010)
- IV.4-1 Proposed On-Property Roadway Improvements

EXHIBITS Continued

Exhibit No.

CHAPTER IV – ALTERNATIVES (Continued)

- IV.4-2 Proposed Roadway Modifications Airport Road Relocation
- IV.4-3 Potential Auto Parking Sites
- IV.5-1 Potential Support Facility Development Sites
- IV.6-1 2020 Plan

APPENDIX C – SEPTEMBER 11 FORECAST VALIDITY REVIEW

- C-1 40-Year Historical Aviation Traffic

APPENDIX F – FULL RANGE OF AIRFIELD CONCEPTS

- F-1 Preliminary Airfield Concepts Minimal or No Development
- F-2 Preliminary Airfield Concepts 1,200' – 2,500' Separations
(Varying Levels of Dependence)
- F-3 Preliminary Airfield Concepts 1,200' – 2,500' Separations
(Varying Levels of Dependence)
- F-4 Preliminary Airfield Concepts 1,200' – 2,500' Separations
(Varying Levels of Dependence)
- F-5 Preliminary Airfield Concepts 4,300' – 3,000' Separations
(Minimum Separation for Independence)
- F-6 Preliminary Airfield Concepts 4,300' – 3,000' Separations
(Minimum Separation for Independence)
- F-7 Preliminary Airfield Concepts 5,000' Separations
(Independent Parallel Runways)

TABLES

Table

CHAPTER I - INVENTORY

- I.1-1 Gross Domestic Product (GDP) (in millions)
- I.2-1 Air Traffic Activity Summary
- I.2-2 Historic Operations Summary by Category
- I.2-3 Airlines and Destinations
- I.4-1 Runway Wind Coverage
- I.4-2 Annual Occurrence of Weather Categories
- I.5-1 Lighting Aids
- I.5-2 Navigational Aids
- I.5-3 Runway Data
- I.5-4 RIAC Public Parking Facilities
- I.5-5 Privately-Owned, Public Parking Facilities
- I.5-6 Northeast and Northwest Ramp Facilities
- I.5-7 Buried Utilities
- I.6-1 Estimated Historical Available Sources of Funds
(FY 1997-FY 2001)
- I.7-1 Noise Incompatibility – 1998 Noise Exposure Map

CHAPTER II - FORECASTS OF AVIATION DEMAND

- II.1-1 Existing Role Forecast Summary – Medium Case
- II.1-2 Existing Role Forecast Summary – High Case
- II.1-3 Existing Role Forecast Summary – Low Case
- II.1-4 Augmented Market Share Scenario Summary
- II.2-1 Census 2000 Catchment Area Population Data by County
- II.2-2 New England Employment and Unemployment Levels
- II.2-3 Personal Income Levels by County
- II.2-4 Major Rhode Island and Bristol County Employers
- II.2-5 Recent T. F. Green Traffic Activity by Airline
- II.2-6 Historical Passenger Traffic
- II.2-7 Historical O&D and Connecting Passengers
- II.2-8 Historical Aircraft Operations
- II.2-9 Historical Cargo Volumes
- II.3-1 Forecasts of Comparative Growth, U.S. and New England
(Compounded Annual Growth)
- II.3-2 Hypothetical Timing of New Low Fare Destinations
- II.3-3 Regression Results – Final Demand Model
- II.3-4 Regression Results – Preliminary Demand Model
- II.3-5 Correlation Coefficient Between New England Gross
Product and Other Relevant Economic Variables
- II.3-6 Other Model Specifications
- II.3-7 O&D Passenger Forecast Growth Rates
- II.3-8 Domestic Passenger Forecast

TABLES Continued

Table

CHAPTER II – FORECASTS OF AVIATION DEMAND (Continued)

II.3-9	International Charter Forecast Assumptions
II.3-10	International Charter Forecasts
II.3-11	Scheduled International Forecasts
II.3-12	Total Passenger Forecasts
II.3-13	Average Belly Cargo Load by Aircraft Type
II.3-14	Air-Cargo Volume Forecast (in U.S. Tons)
II.3-15	Air Carrier and Commuter Aircraft Operations Forecasts
II.3-16	Average Cargo Loads
II.3-17	Cargo Aircraft Operations Forecasts
II.3-18	General Aviation and Military Operations Forecast
II.3-19	General Aviation and Military Aircraft Fleet Mix Forecast
II.3-20	Fleet Mix Forecasts
II.3-21	Total Aircraft Operations Forecast
II.3-22	PMAD Forecast Passengers
II.3-23	Peak Hour Shares of PMAD Activity
II.3-24	Peak Hour Forecasts
II.3-25	Comparison of Medium Case Master Plan Forecasts and FAA TAF Forecasts
II.4-1	Development of T. F. Green Market Share Target
II.4-2	Annual Domestic Forecasts
II.4-3	Annual International Charter Passengers at Boston Logan International Airport
II.4-4	Annual International Forecasts
II.4-5	Summary of Annual Forecasts
II.4-6	PMAD Forecasts
II.4-7	Peak Hour Forecasts
II.5-1	Existing Facility Utilization
II.5-2	Runway Capacity
II.5-3	Runway Wind Coverage for Runway 5R-23L
II.5-4	Annual Cancellations with Shortened Runway 16-34
II.5-5	2020 Runway 16-34 Scenario Forecast Activity
II.5-6	2020 Runway 5L-23R Scenario Forecast Activity
II.5-7	2020 No New Airfield Facilities Scenario Forecast Activity
II.5-8	T. F. Green Airport Passengers Per Gate
II.5-9	Passengers Per Gate Comparison
II.5-10	2020 No New Terminal Facilities Scenario Forecast Activity
II.5-11	Intersection LOS Criteria
II.5-12	2020 Roadway Intersection Delays with Greater than LOS F
II.5-13	Number of Signalized Intersections at LOS F
II.5-14	2020 No New Landside Facilities Scenario Forecast Activity
II.5-15	Summary of Capacity Constrained Scenarios

TABLES Continued

Table

CHAPTER III – DEMAND/CAPACITY AND FACILITY REQUIREMENTS

III-1	Summary of Trigger Points
III.1-1	Operations Forecast Summary
III.1-2	Aircraft Fleet Mix By Aircraft Category
III.1-3	Capacity and Delay
III.1-4	Percent of Aircraft Capable of Serving West Coast
III.1-5	Worst Case Payload Penalties for West Coast Service
III.1-6	Annual Occurrence of Weather Categories
III.2-1	Narrow Body Equivalent Gate (NBEG) Index
III.2-2	2000 Gate Configuration and Utilization
III.2-3	Annual Departures Per Gate Method – 2020 Gate Requirement
III.2-4	Annual Enplaned Passengers Per Gate Method
III.2-5	Percent Increase in Annual Operations Method
III.2-6	Gate Requirements – Departures Per Gate Approach
III.2-7	Passenger Terminal Building Requirements
III.3-1	Summary of Intersection LOS Determination Criteria
III.3-2	Existing and Projected Level of Service (LOS) – Signalized Intersections, Airport Area Access Roads
III.3-3	Existing and Projected Level of Service (LOS) – Unsignalized Intersections, Airport Area Access Roads
III.3-4	Existing and Projected Level of Service (LOS) – Signalized Intersections, Terminal Area Roadways (P.M. Peak Hour)
III.3-5	Short-Term Public Parking Requirements
III.3-6	Long-Term Public Parking Requirements
III.3-7	Employee Parking Requirements
III.3-8	Projected Rental Car Requirements
III.4-1	Integrated Cargo Carrier Facility Requirements
III.4-2	Integrated Cargo Carrier Apron Requirements
III.4-3	Integrated Cargo Carrier Truck/Auto Requirements
III.4-4	Belly Cargo Building Requirements
III.4-5	Belly Cargo Truck/Auto Requirements
III.5-1	General Aviation Building Area Requirements
III.5-2	General Aviation Apron Requirements
III.5-3	Hangar #2/Northstar Aviation Auto Parking Requirements
III.5-4	General Aviation Auto Parking Requirements
III.6-1	Jet A Commercial Fuel Storage Requirements
III.6-2	Fuel Storage Land Requirements
III.6-3	100LL Fuel Storage Requirements
III.6-4	GSE Maintenance Building Requirements
III.6-5	GSE Sheltered Storage Requirements

TABLES Continued

Table

CHAPTER III – DEMAND/CAPACITY AND FACILITY REQUIREMENTS (Continued)

- III.6-6 Existing Airfield Maintenance/SRE Facilities
- III.6-7 Airfield Maintenance/SRE Facilities Assessment
- III.6-8 Existing ARFF Facility Requirements
- III.6-9 FAR Part 139.315 & 139.317 ARFF Equipment Requirements
- III.6-10 ARFF Vehicular Capacities for Extinguishing Agents
- III.6-11 In-Flight Catering Facility Requirements
- III.7-1 Summary of Trigger Points

CHAPTER IV – ALTERNATIVES

- IV-1 Facilities Accommodated in the Plan
- IV.2-1 Airfield Evaluation Matrix
- IV.3-1 Terminal Alternatives Comparison
- IV.4-1 Long-Term Public Parking Requirements
- IV.5-1 Cargo Facility Evaluation Matrix

CHAPTER V - AIRPORT PLANS

- V.2-1 Recommended FAA Airfield Design Standards

CHAPTER VI – IMPLEMENTATION PLANNING

- VI.3-1 Master Plan Project Costs
Phase 1 (Through FY 2005)
- VI.3-2 Master Plan Project Costs
Phase 2 (FY 2006 Through FY 2010)
- VI.3-3 Master Plan Project Costs
Phase 3 (FY 2011 Through FY 2020)
- VI.4-1 Phase 1 Funding Plan
- VI.4-2 Phase 2 Funding Plan
- VI.4-3 Phase 3 Funding Plan
- VI.4-4 General Strategy for Funding Sources

APPENDIX A – SURVEY RESULTS

- A-1 List of Surveyed Flights
- A-2 Survey Weighting
- A-3 Average Travel Party Size
- A-4 Trip Purpose
- A-5 Airline Passenger Survey Destination Region
- A-6 Place of Origin
- A-7 Geographic Distribution of Passenger Originations
- A-8 Mode of Travel to the Airport

TABLES Continued

Table

APPENDIX A – SURVEY RESULTS

A-9	Average Number of Air Passengers Per Personal/ Company/Rental Car
A-10	Passengers Arriving by Auto--Drop-off or Parked
A-11	Parking Lot Distribution
A-12	Parking Characteristics
A-13	Passenger/Luggage Check-In Location
A-14	Number of Well Wishers Entering the Terminal
A-15	Average Amount of Luggage per Passenger
A-16	Trip Duration
A-17	Resident/Visitor Status
A-18	Amenities Used
A-19	Summary of Passenger Comments
A-20	Peak Hour Upper and Lower Roadway Vehicle Classification
A-21	Peak Hour Upper and Lower Curb Use
A-22	Peak Hour Ticket Counter Observations
A-23	Peak Hour Security Screening Observations
A-24	Baggage Claim Observations
A-22	Peak Hour Ticket Counter Observations
A-23	Peak Hour Security Screening Observations
A-24	Baggage Claim Observations

APPENDIX B – FORECAST ASSUMPTIONS

B-1	Historical Values of Model Independent Variables
B-2	New England GRP Projections (in millions)
B-3	Yield Projections
B-4	Low-Fare Carrier Market Penetration Projections
B-5	T. F. Green Load Factor Data – 4th Quarter 2000
B-6	Assumed Mix of Aircraft

APPENDIX C – SEPTEMBER 11 FORECAST VALIDITY REVIEW

C-1	Top Ten Airlines Revenue Passenger Miles (RPM) Fourth Quarter 2000 vs. Fourth Quarter 2001
C-2	Top Ten Airlines Available Seat Miles (ASM) Fourth Quarter 2000 vs. Fourth Quarter 2001
C-3	T. F. Green 2000 and 2001 Passenger Traffic Comparison
C-4	Scheduled Seats Comparison

APPENDIX D – TERMINAL SPACE PROGRAM

D-1	LOS Determination Criteria
D-2	Actual and Base Forecast – Passenger & Aircraft Activity
D-3	Existing Passenger Terminal Building

TABLES Continued

Table

APPENDIX D – TERMINAL SPACE PROGRAM (Continued)

D-4	Existing Passenger Terminal Building – Planning Factors
D-5	Proposed Passenger Terminal Building – 2000 (Base Year)
D-6	Proposed Passenger Terminal Building – 2005
D-7	Proposed Passenger Terminal Building – 2010
D-8	Proposed Passenger Terminal Building – 2015
D-9	Proposed Passenger Terminal Building – 2020
D-10	Passenger Terminal Building Facility Requirements Summary

APPENDIX E – CURBFRONT REQUIREMENTS

E-1	Curbfront Capacity
E-2	Peak Hour Enplanement/Deplanement Activity
E-3	Projected Peak 20-Minute Curbfront Utilization
